**Hi Jim,**

**At this point I don't know what to say. I am not yet in a position, health wise, where I am comfortable meeting in a professional setting.**

**I think the best way to approach this now is to start seeing some work done by the town. I think we can devise a plan, timeline and budget over email for now. If we start with the worst areas and some of the lower cost items, I think we can calm things down. The Facebook page has turned ugly. It is not my temperament. I do not like conflict but I also believe in freedom of speech.**

**If we could please start with getting more wood chips right away. We need them inside and outside the gate area from the parking lot to the big tree on the west side.**

**Then we need to worry about the removal of the dead tree in the north east corner and repair the gate right away.  
 We can plan for a new fencing either late in the year 2017 or as part of the 2018 budget.  
 We also, need to have a plan in place for next year for the paving of the parking lot.  
 Other items not as urgent include better lighting, drainage, a small dog area.  
 Users have also requested running water. Signage for Canine Commons(so you can see that is a dog park from the street). We are currently in need of additional blue bins(way down on the list), help with weeds and grass cutting.  
 If timelines and budget numbers are communicated to the user community then people will see the town's commitment to the park.  
 What do you think of my plan? When can we get started? I can mobilize the user community if you need bodies to assist in any project you feel we can contribute.  
 I look forward to working with to create a dog park our town can be proud of.  
 Thank you,  
 Helen**

On Dec 21, 2016, at 2:57 PM, Bob Lepp <boblepp@gmail.com> wrote:

I left just one post naming Dogs In Aurora. No one joined anyway.

**I will advocate for the park by name only and will not mention volunteer names, I only know you and Cindy as volunteers so if you**

think I know any of the others send me their names.

It's really been fun. I enjoyed every minute. I know you will carry on in style. I will miss good cop, bad cop though.

I have one last statement... don't let them make you beg for anything Feb. 16, don't go, let the other volunteers carry some load, simply send them all this link:

Its Jim saying he's aware of all needs and is fixing them.

It is incredible that they would even contemplate having you appear. They want the reporter and public to think... "If that Helen had just written up a list ten years ago we would have had all this done by now. Why did she delay so long before coming before council?"

Any council that condones Mrakas and Tree lying to you and offering a bribe (not illegal, just exhibiting a character flaw police say) will do what it takes to not be embarrassed Feb. 16. Watch how they word any press release or even council meeting announcement. Make sure it reads like "Council admits Parks has taken no action on 2013 contract, will fast track new lighting and new fencing over the winter" or similar. What they likely pull is another delaying tactic by Downey, saying he can do nothing until spring. Howard can help you get a quote on alight nd fencing to be winter completed. Just send it to them. They can also dig out the tons of garbage wood.

I will let you know what the OSPCA says.

I will tell anyone who responds and mentions your name to change any response to just say the dog park, or Canine Commons. I'd love you top join Dogs In aurora if your heart can take it. I have new info everyday for dog owners in general, not just the park issues. Did yo know the "at your own risk" sign is meaningless? EVERY injury is a claim on the town. Post that in your group.

People are fooled by the sign. Research it. Howard will help.

I will watch the video of Feb. 16, I know you will do a great job. Janet also wants no part of our Facebook groups, too busy, but she

did ask about using my research. You have it all in your head so go for it! I am not providing it to her. She had onshore call to Downey and she thinks he's nice to deal with... not one dollar in 13 years and he's nice to deal with....ddddooooohhhhhh!!!! I will give a nice cleaned up, well checked chronology of the past 13 years for Teresa's article. She will catch them out in interviews I hope.

Merry Christmas! See you at the park.

No hard feelings at all. sleep tight, I have lots of targets to aim at yet.

On Dec 29, 2016, at 12:20 AM, Bob Lepp <boblepp@gmail.com> wrote:

Meet why? So they can lie some more?

Ask him if it can be made public that the park is moving.

When he says, oh no, our secret talks with the mysterious conservation authority must be kept quiet...you'll know.

There is too much to be told to stop putting pressure on them. The pressure makes them invent new reasons every day why they have not spent any money in 13 years. You know that's true, please confirm you know they spent nothing in 13 years. That my big mouth got you your chips. No amount of your begging got you the chips.

Tree and Mrakas lied to you December 7. Both lied to you and tried to cheat you but you have chosen to believe their story.

There is no way he will put in writing they have discussed moving the park. None.

CAO Doug Nadorozny left Sudbury in disgrace. He was fired. People cheered in newspaper comments about him being walked out of city hall by security guards. He is said to be involved in huge amounts of missing money. Sudbury gave him over \$360,000 to not sue them. He and Downey make the perfect pair.

Nope.

Nope. The man is demented. No mention of protected in any master plan. He writes the plans to appear like he's done something. But he did nothing.

If it's protected why did he dump the garbage wood??

If it's protected why did the reporter interview you and Jim in 2013, saying everything was to be fixed?

He wants you to believe his story now, today, so he does not have to admit I'm right about him. He hates dogs. Simple. He's a

He wants you to believe his story now, today, so he does not have to admit I'm right about him. He hates dogs. Simple. He's a master politician.

Has there been any hint of moving before Dec 5? Only since his boss leaned on him did he come up with this idea.

Clever guy. A survivor.

Get him to put in writing somehow. An email even.

Then I'll follow up.

Where does he plan a parking lot for the arboretum?

Good thing you knew to get your own liability insurance in your volunteer agreement. If the town says the CCC was responsible

for maintenance the lady's lawyer will come after the committee. Let's hope the town accepts blame.

Quote contract "In addition, although the Town presently provides insurance for volunteer workers, such as the members of the Canine Commons Committee, in the event that their activities cause bodily injury, personal injury or property damage to a third party, the members of the Canine Commons Committee acknowledge that the existence of such insurance coverage is liable to change and that throughout the duration of this Agreement."

Sent from my iPhone

On Nov 29, 2017, at 8:03 AM, Bob Lepp <my.town.aurora.ca@gmail.com> wrote:

Helen Clarke-Jennings, Lead volunteer Canine Commons Committee,

Canine Commons, Parks, Trails

**I am aware you do not want to hear from me, BUT, the fact is you are in charge of the park volunteer committee.**

I am glad to see you back in action, though.

As you may have heard, the Town and the Bylaws Manager had me criminally charged because I stood up for OUR rights to object to the way the Town abused you since 2011. I was able to get the bogus charges erased. But the toll on my family has been significant. I was placed in that position JUST for trying to help you out when you were sick last year. At least my efforts got you some visibility after 11 years of thankless volunteer work EVERY day of the year.

**The park would not exist without you.**

That said, you need to be more involved. And you STILL need to be even more demanding of the town to support you.

**Yesterday an 8 year old boy was bitten, breaking the skin on his leg above the knee.**

It was the child's "fault" in that he was running around waving his arms and the dog saw that as a threat to his mistress. The owners exchanged information. I mediated to calm the child's father.

But, it remains an issue I see frequently... children running around trying to get attention from other people's dogs.

Three suggestions.... The signage is not prominent enough, no one has access to written rules for use of the park and there is no

first aid kit available.

Your contract (APPENDIX A [click here](#)) with Al Downey requires volunteers to.....

13. The CCC agrees to develop and distribute informational materials designed to advise its members and users of the expected conduct and rules of use within

the Park and **the existence of this agreement.** The CCC further agrees to review

and discuss the content of all such informational materials with the Town prior to distributing said information to the general public.

**YOU** are required to tell users that **THERE IS A CONTRACT IN PLACE WITH YOU TO PROVIDE SERVICES.**

This seems obviously aimed at making sure users know who does what in the park. They wanted you to tell us that you volunteers

This seems obviously aimed at making sure users know who does what in the park. They wanted you to tell us that you volunteers do EVERYTHING.

**No informational materials have EVER been created or distributed since you signed to do so in 2011.**

Sorry for the shouting, but this is now 6 years overdue. And it causes issues. Those few who want people to follow the rules have no rules published.. so nothing improves.

Your official Canine Commons park Facebook page is private, no one knows it exists and if they do,

they cannot view it unless you approve... your approval should NOT be required to see your posts about the park. If you want a private Facebook page, fine, but create a second one the PUBLIC can access, and advertise in the park how to view it.

Without rules and clear signage accidents happen. Poop goes "unnoticed" because people are not told of the rule to keep your dog in sight 100% of the visit. People turn their backs, chat with each other, their dog poops out of sight.

**An all weather first aid kit could be available if you wanted one. It could be locked with a dial combination, your number could be on**

it and people needing antiseptic and a bandaid could call you for the combination, then you could record the injuries "in case"

someone sues the Town for lack of control of dog owners.

**90% of dogs using the park have NO PET TAG from the Town. There needs to be a blitz at 4:30 - 6:00 pm by Bylaws on this issue,**

but they refuse to be involved. I object to Newmarket residents using the park daily and not having EITHER a Newmarket tag OR an Aurora tag.

**I object to use of the park by dogs not having a tag, and this is all we have to prove rabies compliance. So many dogs show NO**

TAGS at all inside the park, this is unacceptable.

I object to people bringing in more dogs than they can reasonably control, per the rules sign in very small type. 3 is the limit at other

parks having such a rule. I fully realize you do not publish such a rule due to your dog walking business, but the fact remains no one can control more than 3 dogs and 3 dogs are the maximum allowed for one owner by town bylaws.

I object to parking, in the wrong direction even, in the no parking zone at the gates to avoid the mud since it forces incoming cars to

go into the wrong lane and because people can pop out from behind parked vehicles and get hit by an incoming car.

<image.tiff>

7 Parks "experts" constructed the fence, They knew nothing about building a dog fence. Compex, the fence hole contractor, laughed at their attempts.

I object to the new gates being installed with bottom rails TOUCHING the ground already, they will freeze in the first snow and then people will break them trying to get inside. They MUST be moved HIGHER. They were more concerned about dogs getting under the gates than they were about getting under the fence.

<image.tiff>

I object to the fence being built inside out... the fencing MUST be on the inside of the posts, and per the Town's own bylaws it must be installed so the "good side" visually MUST be towards the neighbours. They filled gaps under the fence with chips, these will easily be dug out by dogs and wild animals, especially by those not being watched by the person bringing them inside.

I object to the fencing having an opening size being too large and installed so that wild animals can get inside the park easily.

Standard designs require fencing material to go into the ground under the fence and then going horizontal inside and buried so no animals can dig in or out.

I object to the CORRECT fencing be used on the gates, a 2 x 4 inch opening, but the improper 4 X 4 inch used everywhere else.

They knew which fencing is correct, but used the 4 X 4 mesh instead. Lots of breeds can get out through the large size they chose. And lots of baby wild animals can get inside. They could be rabid.

I object to the lack of a covered garbage can. Trash blows around the park and dogs can choke chewing water bottle caps. A simple trash can like at ALL OTHER parks is required. The garbage blowing around is simply not nice. The fact Downey has REFUSED to install a proper receptacle when HIS OWN BYLAWS REQUIRE pet waste be placed in ONLY "approved canine receptacles". IN 2011, he got \$60,000 to (CLICK HERE) **ADD 35 garbage receptacles** and did NOT put even ONE into Canine Commons.

<image.tiff>

I object to Parks failing to clean up DUMPED YARD WASTE on the east side of the parking lot. I have sent multiple photos by Pingstreet, all 7 parks men building the fence ignored the dumped yard bags for over 2 weeks. The crap is still there if you could inspect please.

I object to the broken bollards, required by LSRCA rules. I object to the lack of "No overnight parking" signs as the LSRCA told me

I object to the broken bollards, required by LSRCA rules. I object to the lack of "No overnight parking" signs as the LSRCA told me are required by their guidelines.

I object to ALL work being done WITHOUT a single permit as required by the LSRCA. I did a freedom of information request and they replied NO APPROVALS were ever given in a permit. The JOC got a building permit, but EVERYONE has FAILED to follow soil erosion requirements, they simply ignored their permit and are liable for huge DAILY fines. The same man who built the JOC and now allows runoff to erode from the storage yard built the new fence, and he simply does not get the required permits, nor does he comply with LSRCA rules.

I object to the mud due to the incorrect gravel being used on the parking lot, it could easily be clean gravel so that mud does not build up on the pavement. We still cannot get a dog in and out with clean feet. I know how, back into the west side spots, exit onto the grass and then to the sidewalk. But mud is everywhere for most people. Make a pathway of chips around the perimeter of the mud so you can park on the chips and get your dog in and out clean.

Again, I know you do not wish to hear from me. BUT, as a taxpayer I have the RIGHT to speak to you as you are the ONLY person known to volunteer at this park. And every time I asked for something to be corrected I was told the volunteers were responsible for EVERYTHING in this park,  
***This park can be improved by following the contract you signed.***

Best regards, stay well!

Bob

, All councilors,

Lead dog park volunteer Helen Clarke brings more dogs into the park than she AND her staff can control. Today the staff let four dogs get loose out of the van. They could easily have been killed.

One dog named Finnegan lies in the mud then jumps up at people, see pants of "Greg" below. Everyone's afraid to confront the lead poop picker in case she quits again. He's a nice dog but completely uncontrolled within the park.

Greg is livid but still too lazy to email you. How would he know who to contact, he said ?? No signs. No bulletin board. No rules.

Park rules are clear outside the gate only, no one reads them with a dog pulling at them.

The lead volunteer knows the rules and ignores them ALL because she knows she is in charge of administering the rules. For over SEVEN years now she has avoided writing and distributing the rules to users as REQUIRED by her signed Contract. PKS-11-015. Go read it. It's just one contract of ten pages for the only dog park in town. You should know it by heart. If she wrote them out on paper for users...she'd have to follow them. So she doesn't.

In turn Al Downey does not require her to obey his own contract. He ignores it too. The mud holes need chips. Where are his staff?? Downey gets promoted despite ignoring his own signed contract for seven years.

Today it's "Greg", local realtor, getting furious. Tomorrow it's some other person. They bitch but are too lazy to write a simple email. 8 of 10 dogs have no tags.

Patrol the park 10:30 to 1 pm. It's the ONLY park you have, so monitor it. Then come back 4pm to 6.

Where were you patrolling at lunch today?

Paws in the SARC? Got you tied up?? Last year three vendors. 44 this year? Zero tolerance. Tags. Control. # dogs brought inside.

You were hired for this specific task. If you do not wish to do the job we taxpayers do have one way to get things done. Lawsuits. You can be sued individually for "misfeasance in public office" my new favorite word. Google it. You can't be sued for issuing a bad ticket but you can and will be sued for not doing the job you were hired to do. I am not threatening. Your old manager thought she could act any way she wished and be protected by the municipal act. Wrong. I have her for \$25,000 In court now. I know how to do it.

You don't control the largest concentration of dogs in one simple place with the most abuses. Dog shit everywhere. 80% of dogs with no tags. Too many dogs by one person. Aggressive dogs. Muddy dogs. Separated dogs.

The busiest times are standard. Lunch and dinner. I never see you. Misfeasance. Look it up.

Publish and distribute the rules required since 2011. Post signage inside on the poop law. Post how to contact YOU for abuses. Patrol daily. All simple requirements of an animal control officer specialist.

You posted no smoking when there is no bylaw.

Control the dog park. Rant done.

Now to find who stole my leashes from the gate. Cue laughter
